# What our customers say about us

"Recipients love that they can pick their own gift. Before Snappy, we would say 'okay you're getting a coffee mug' and maybe some people wouldn't use that. So I like that there's an array of options to choose from that's personalized to you, and what you might actually want."

– Dayna Doroshow, Digital Experience Researcher | Comcast

"Snappy has definitely increased our overall employee recognition. Our employees love it, our managers love it, and it just fits perfectly with our company."

– Abby Carroll, Manager of Benefits and Rewards | Tillamook

"Snappy's tool provides a fun, interactive, and admin-light experience to ensure our star employees all over the world are recognized for great work. We have also taken advantage of the automatic anniversary gifts making us look uber thoughtful with 100% reliability. Employees have been thankful for both the recognition and unique selection of gifts to choose from. Snappy even offers a concierge when employees are looking for something unique. Net-net, it's a no brainer win."

– Joy Wolken, Happy Camper | VP People & Culture | Alation

Snappy has elevated our level of employee engagement. Our team is feeling the love and the appreciation and we're looking forward to rolling out more gifts each month.

– Krista Werne, Human Resources Generalist | Luxfer Magtech

"Snappy is an amazing way to send gifts to employees. We have used Snappy for recognition weeks and love it! Gifts are sent to the employees' homes which takes the hassle out of trying to deliver gifts to a large group of people. It also allows people to select exactly what they want."

– Courtney Marshall, Clinic Manager | Mountain View Hospital

"Snappy had a huge impact on our employee engagement. After rewarding our Account Managers with Snappy gifts, we were highly impressed with how many accounts we were able to introduce to our new software at the end of the quarter. The previous quarter was nowhere near as impressive."

– Sasha Sheftel, Manager of Customer Retention | Justworks
